ESTES CONSULTANCY HONOURED WITH LEADERSHIP AND ADVOCACY AWARD AT THE 26TH SINGAPORE ENVIRONMENTAL ACHIEVEMENT AWARDS (SEAA)

Singapore, 20 August 2025 – Estes Consultancy, a leading sustainability consultancy in Singapore, is proud to announce that it has been awarded the **Leadership and Advocacy Award** at the **26th Singapore Environmental Achievement Awards (SEAA)**, presented by the Singapore Environment Council (SEC).

Estes Consultancy has gained recognition as a pioneering leader in sustainability consulting, championing environmental advocacy through client education, supplier engagement, and the integration of ESG best practices across all aspects of its operations. With a structured sustainability checklist in place, environmental considerations are systematically embedded into every business decision, establishing Estes as a trusted advisor in the transition to a low-carbon future.

The firm's impact is amplified through its carbon services, helping clients identify, measure, and reduce their carbon footprints while aligning with evolving regulatory standards. In response to rising demands for assurance and compliance, Estes invested in upskilling its team in 2024, completing advanced training across various areas to ensure technical leadership in delivering audit-ready sustainability insights.

Beyond its client-focused initiatives, Estes actively engages suppliers and the wider ecosystem by hosting workshops, seminars, and site visits, including educational tours where clients experience best-in-class technology that has contributed to an 85% reduction in energy use and carbon emissions. Internally, the company fosters environmental best practices through ongoing staff development and policy implementation, while externally guiding suppliers and clients on sustainable procurement policies and alignment with public sector frameworks.

*"We are honoured to receive the Leadership and Advocacy Award at the 26th SEAA," said **Mr Jin Ng, Founder and Managing Director at Estes Consultancy**. "This recognition inspires us to continue championing sustainability, empowering clients and partners to integrate ESG practices, and driving meaningful change toward a greener future."*

Estes Consultancy's recognition in the **Leadership and Advocacy Category at the 26th SEAA** reaffirms its status as a forward-thinking consultancy dedicated to making a lasting impact on the environment. The firm continues to lead the way in ESG education, reporting, and stakeholder-driven advocacy, promoting a sustainable future for generations to come.

About Estes Consultancy Pte Ltd

Founded in February 2022, Estes Consultancy is a sustainability-focused consultancy providing sustainability consulting and sustainable solutions to help organizations reduce greenhouse gas emissions and advance sustainable practices. Through its comprehensive services including ESG reporting, carbon management, and tailored sustainable solutions, the company strives to create a positive environmental impact while supporting businesses in aligning with the goals of the Singapore Green Plan 2030.
